2014 Enrolments

All families of eligible children in our school district and other families that express interest in our school district are invited to enrol their child/ren at Corinella Public School from this time forward. When we have numbers, we can plan for playgroup sessions at the school, as well as, plan for orientation days for students enrolling in 2014. Please share this information with any parents who may not receive this newsletter.

Lachlan District Cross Country

Friday 24th May, students travelled to enjoy the unprecedented beautifully sunny Autumn weather while participating in the annual Lachlan PSSA Cross Country, at the Forbes Race Course.

Every student competed and completed their course of 2000 or 3000 metres depending on the age group. Highlights of the day were Charlie Fay who gained 5th place in the 13 Years Boys, which earned him a place to represent the Lachlan district in the Western Region competition in Wellington on Wednesday 12th June. We wish him the best of luck. Another highlight Melody Osborne in Year 1, who competed with the 8 year Girls and completed the 2000 metre run coming in beaming with excitement. The boys were so excited for her. Congratulations to all students for their conscientious efforts. Thank you to parents for transporting students and thank you to Mrs Fay for managing the team on the day.

What Type of Leader Are You?

Year 5 and 6 students Aaron Mickan, Charlie Fay, Flynn O’Neill and Jack Carty travelled to Wagga Wagga with Mrs Cartwright to join with three hundred other Stage 3 students to learn about leadership styles and techniques at the 2013 GRIP Student Leadership Conference.

Students played some fantastic games that caused them to reflect on what leadership is and how they are leaders in everyday life. They learned the leadership roles of famous characters in movies like Madagascar 3 and Toy Story 3. They also learned the value of laughing, being part of a group and the importance of knowing their own personalities.

How do we help at our school:
- Do good things for people outside the school; concerts and fundraising
- Actively helping younger students; buddy program
- School yard needs; composting and caring for chooks

This learning will help students develop their responsibilities for leadership at Corinella School.

Kitchen Garden

We have finally solved the problem of hens hiding under the Administration building every afternoon at the same time. Mr Horan has put netting around the building and for the moment life seems a little easier at 1.30pm! No scrambling bodies lying in the mud coaxing, to no avail, those dastardly hens and Roger out. Thank you Mr Horan and Jim Carty for collecting the materials required.
