Superhero Day

Friday 25th July was Super Hero Day at Corinella School and our Year 5 and 6 students led the way with some great engaging leadership, arriving to school completely disguised as famous super heroes; Superweirdo, Superastro and The Mask. Kindergarten and Year 2 dressed to surprise as they came as Rainbow Woman, Love Supergirl, Pink Girl and Supergirl.

The students defied the laughter to raise funds for Bear Cottage at the Children’s Hospital, Westmead. They raised a total of $17.00 and had a terrific day as masked Superheroes.

NSW DEC Education Week

No observation for parents at Corinella! Parents arrived just in time to take part in measurement activities with the students.

Constructing a cubic metre with Stage 3, estimating the length of the oval and measuring with lengths of ribbon and the trundle wheel, measuring the perimeter of rectangles on the tennis court with the skipping ropes and measuring the surface area of the lunch tables making rows and columns a wonderful array of A4 paper and bean bags on top!

There was a lot of discussion and problem solving throughout the activities. Parents then stayed to enjoy lunch with the staff and students.

After lunch each group explained their tasks to their peers and took questions about the activities. It was a wonderful maths day outside in the sun.

Premier’s Sporting Challenge

The annual NSW Premier's Primary School Sport Challenge aims to engage young people in sport and physical activity and encourages them to lead healthier, active lifestyles.

The Challenge involves primary school classes participating in a 10 week sport and physical activity challenge. A class may accumulate time spent in a broad range of sports and recreational pursuits during lunchtime, in school sport programs, class time, after school or in weekend physical activity.

It wasn't hard! Any daily physical activity of moderate to vigorous intensity could be used to accrue time. Moderate activities such as brisk walking, bike riding, skateboarding, playground games and dancing were recorded. Vigorous activities such as soccer, running, skipping, dance, rugby league were also recorded.

Students were encouraged to work towards the recommended national daily activity standard of one hour per day, according to the Australian Government Department of Health and Ageing, 2004.

Guess what? Not to our surprise, they achieved it! With an average daily activity record of 80 minutes, Corinella students are certainly very active!

Weekly Assembly

STUDENT OF THE WEEK

Karla Osborne - Terrific reading & maths
Depression, Anxiety, Mental Health
